CURES AND COMFORT FOR THE BED-RIDDEN.
—BY—
Holloway's Ointment

This wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures It heals by cleansing all animal fluids with which it comes n contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of rheumatism and Gout this ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spo

Diptheria, Bronchitis, Sore Throats, Coughs and Colds

his class of diseases may be cured by wellrubbing th Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency nd safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect heir own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel

Are immediately relieved and ultimately cured if this ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

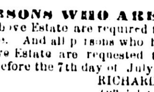

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and Stiff Joints,	Sore Nipples,
Burns,	elephantiasis,	Sore Throats,
Bunions	Fistulas,	Skin Diseases
Bite of Moschetos and Sand Flies,	Gout,	Scurvy,
Coco-bay,	Glandular Swellings,	Sore Heads,
Chiego-foot,	Lumbago,	Tumours,
Chilblains,	Piles,	Ulcers,
Chapped Hands,	Rheumatism	Wounds
Corns, (Soft)		Yaws

Sold at the establishment of PROFESSOR HOLLOWAY 244 Strand, (near Temple Bar,) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices: 1s 1½d, 1s 9d, 4s 6d, 11s, 22s, and 33s each Pot.

∴ There is a considerable saving by taking the larger sizes.

N.B.—Directions for the guidance of patients in every disorder are affixed to each Box wi5-1yeow

EXPRESS NOTICE.

ON THE FIRST DAY OF JUNE AND on the first and 15th day of each month thereafter,

Barnard's Express
WILL DESPATCH

THE AMERICAN
SUBMERGED PUMP.
FOR
FIRE, SHIP, HOUSE, FARM, FACTORY
Distillery and Irrigating Purposes.

This valuable pump is being manufactured and sold by the Pacific Pump Manufacturing Company, San Francisco, California, and they place it before the public confident that it will supersede all and any Pump extant for the purposes for which it is designed. It is a

DOUBLE-ACTING, NON-FREEZING FORCE PUMP,

adapted to Deep Wells, and almost every use to which a Pump can be applied. No pains have been spared to test its various qualities, having been subjected to the closest and most severe trials before Civil and Mining Engineers, Insurance Companies and the U. S. Life-Saving Commission of 1867, in the report of which it is the only Hand Pump mentioned notwithstanding many others were submitted for examination. From all and everyone it receives the highest ecomiums of praise.

It has been the aim of the Company to construct it on scientific principles; and it is claimed that no other Pump of the same capacity will do its work with greater ease and freedom than the American Submerged Pump

A SAMPLE PUMP is now set up on our wharf and the public are invited to inspect its working. R. BRODRICK & CO.

Coughs, Colds, Rheumatism, Diarrhœa, Dysentery, and Fever.

THE "TIMES," OF INDIA, STATES "that the discovery of Dr. J. COLLIS BROWNE'S CHLORODYNE is a greater blessing to the human race than even the discovery of Vaccination" This remedy is invaluable in the above diseases, and is indispensible to Emigrants, Travellers, and Families, a few doses being generally sufficient

DR. J. COLLIS BROWNE'S CHLORODYNE.—The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See "Lancet," December 31, 1864

DR. J. COLLIS BROWNE'S CHLORODYNE.—Extract from "Medical Times," January 12 1866 — "Is prescribed by scores of orthodox medical practitioners. Of course it would not be thus singularly popular did it not supply a want and fill a place."

DR. J. COLLIS BROWNE'S CHLORODYNE is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, etc.

DR. J. COLLIS BROWNE'S CHLORODYNE.—Extract from the General Board of Health, London as to its efficacy in cholera. "So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

It is necessary to warn the public against spurious imitations, which only bear the pirated name, and are deficient of the true properties of the only genuine, viz.: DR. J. COLLIS BROWNE'S, as was proved before Vice-Chancellor Sir W. P. Wood, in the Court of Chancery, in case Browne vs. Freeman, when the Vice-Chancellor stated that the story of Freeman being the Inventor was DELIBERATELY UNTRUE.

Miscellaneous.

THE PERFECTION OF PREPARED COCOA.
MARAVILLA COCOA.
SOLE PROPRIETORS,
TAYLOR BROTHERS,
LONDON.

THE COCOA (OR CACAO) OF MARAVILLA is the true THEOBROMA LINNÆUS Cocoa is indigenous to South America, of which Maravilla is a favored portion. TAYLOR BROTHERS having secured the exclusive supply of this unrivalled Cocoa, have, by the skilful application of their soluble principle and elaborate machinery, produced what is so undeniably the perfection of prepared Cocoa, that it has not only secured the preference of homœopaths and cocoa-drinkers generally, but many who had hitherto not found any preparation to suit them, have, after one trial, adopted the Maravilla Cocoa as their constant beverage for breakfast, luncheon, &c.

"AN UNPRECEDENTED SUCCESS."
See following Extract from the Globe of May 14, 1868.

"Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs Taylor Brothers discovered the extraordinary qualities of "Maravilla" Cocoa.

Adapting their perfect system of preparation to this the finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For Homœopaths and invalids we could not recommend a more agreeable or valuable beverage."

Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original HOMŒPATHIC COCOA and SOLUBLE CHOCOLATE.

Steam Mills—Brick Lane, London.

The California Dry Dock Co.,
SAN FRANCISCO, CAL., U. S.
Notice to Shipowners, Agents, Consignees and Masters.

THE COMPANY'S DRY DOCKS, situate at HUNTER'S POINT, SAN FRANCISCO, are now Completed and in Successful Operation, and afford every facility for the Docking and Repair of all Classes of STEAM and SAILING VESSELS. The GRAVING DOCK, excavated on the Solid Rock, and finished in the most substantial manner, is of the following dimensions:

Extreme length, 450 feet; length on blocks, 416 feet; width at the top, 120 feet; depth, 30 feet; width at entrance 90 feet. At mean high tide will take in a ship drawing 22 feet without lightening.

This Dock is fitted with a Caisson Gate, and is supplied with Two Powerful Centrifugal Steam Pumps, capable of pumping out the Dock in two hours.

The FLOATING DRY DOCK will receive Vessels of 1500 tons measurement and under. The Dock is 82 feet in width, and 210 feet in length; is built of the Soundest Oregon Pine, thoroughly braced and bolted, and is furnished with all the requisites for Docking a Ship successfully. Vessels taken up at all stages of the tide.

The Company feel warranted in stating that Repairs on Vessels can be made as advantageously in San Francisco in respect to Cost of Materials and Labor as in any other part of the world.

THE BRITISH COLONIST.

Monday Morning, July 5, 1869.

THE Bay of Nipe, where 700 filibusters from the United States landed and were received with open arms by the Cubans, is one of the best and most commodious harbors of the Queen of the Antilles. The invaders were attacked immediately on landing and lost 200 men before the bulk of the force got out of the way of the Spanish volunteers and entrenched themselves. The filibusters were commanded by Colonel Jordan of the late Confederate army. On the run down to the island a mutiny occurred on board and the ringleaders were shot dead before order could be restored. It has been stated that the escape of these men from an American port in a well-appointed American steamer prejudices the Alabama claims and furnishes a parallel to that remarkable case. The Alabama, it will be remembered, although built in a British port, went to sea unarmed and was furnished with guns and men when leagues distant from the British coast. In the Nipe Bay affair there was little secrecy observed at New York while the vessel was fitting out, but the Government authorities received no official intimation of the intended departure, and were not bound to take cognizance of the matter. The Spanish Consul, alone, appears to have been remiss in his duty in not ascertaining what was going on, and laying the complaint before the American Government. In the Alabama case, the American Minister protested against the departure of the vessel; but in the face of this protest the ship put to sea with a crew partly drawn from the Government dockyard. The United States Government seems to be pursuing a course towards Cuba that will not prejudice its claims against Great Britain, hence while they winked at the departure of the Nipe Bay Expedition they caused the arrest of the Cuban Junta in New York city, a few days ago, at the instance of the Spanish Minister.

TO-DAY is appointed for the celebration of the independence of the United States, and we doubt whether any event in the history of the world is more worthy of being religiously observed. The noble devotedness of the early settlers in their determination to cast off the yoke of the mother country, is only paralleled by the sincerity and patriotic whole-heartedness of the leaders of the movement. These men could have obtained large rewards for their aid, if given to the Royal cause, but reckoning wealth, comfort, even life, as nothing compared with the sublime possession of freedom, they offered all on the altar of that Divine Goddess. Their success only proved their fidelity to the principles they fought for, and every true seeker after liberty will admit to this day that the constitution framed by these fathers of their country was the noblest record of their labor. The anniversary of the Declaration of Independence has been, as we trust it will continue to be, celebrated in all future time, with due regard to its importance in the annals of America, and will be held up as an example to nations yet unborn. The framers of the constitution of the United States gave up all, that they might make the nation great in every sense as a moral nation, as a home for the weary and heavy-laden, the poor and the oppressed.

A GREAT deal has been said for and against the propriety of protecting Island grown farm produce by a Customs duty; but few facts have been produced on either side to warrant any definite conclusion. Why not, then, in the face of this general want of knowledge, furnish statistics of the number of head of cattle, sheep, swine, &c, in the various districts, so that some conclusion may be arrived at. Nanaimo has led off in this particular and, we are bound to say, the showing, so far as the number of acres under cultivation goes, is unfavourable. Can farmers in other districts make a better showing?

Leech River.

EDITOR DAILY COLONIST.—In the dolorous but amusing account of Leech River, published in your paper after your visit to us, you make one mistake, which though slight in itself, nevertheless bears so strongly on the wisdom of first attempting the hydraulic pipe in that district, and upon the consistency of still persevering, that I desire the privilege of correcting it to avoid any evil effect it might have hereafter. At the same time, perhaps, it will not be altogether uninteresting to your readers in general, if I give a short statement of what has been done since your visit, the period of our first unfortunate wash-up. The mistake I refer to is that of your reference to a supposed lead of gold existing in the banks and adjacent hills; you say, "such a theory is supported by the history of other gold countries, but whether the present company (meaning ourselves) will be the lucky finders of that lead in this instance requires a practical test to prove." Thus you make the existence of the lead suppositious, instead of positive, for it does exist in distinct form; and, if I could have commenced piping upon this lead at the point where we have since been ground-sluicing, the operation would have been successful from the start. It was impossible however, for me, under the circumstances, to commence at that point, and the first failure arose solely from attempting to intersect the lead from the point where I did commence, which became impossible from the bed-rock dipping so rapidly that I was utterly left without fall for the delivery of the dirt.

The formation of this lead appears to be governed by two extensive deposits of a sedementary clay, about two feet apart caused by extensive washes ages ago, beyond the limits of which, so far as yet known, there appears to be little or no gold in the benches. This lead has never, I believe, been found on the east side in other than small and detached spots, but from our ground to Bacon Bar, over half a mile on the west side, it shows itself as I have already stated. Above the upper clay the gravel is loose, of a bluish grey color, and prospects according to our test half a cent to the bucket; between the two clays the gravel is very handsome, paying according to our test a cent to the bucket; below these clays to the primitive bed-rock nothing is known, as no one has been able to get down from the surface for water; it has however been followed deeper than the level of the present river bed. The whole formation, between and below the clays, bears evidence of an immense wash at all periods, the surface of the calcareous, porphyritic, and granitic rocks especially being polished like a mirror, far more so than those exposed in the river. I have no doubt of the river originally going through this bar.

Now, sir, to open up this lead, considering the results it would have upon this city, appears to me a laudable, as I have no doubt it will eventually be a profitable undertaking. Dirt that prospects for thirteen feet deep, as this lead does, would be considered good dirt in any mining country, and all it wants on Leech River to make it pay well is to be worked on a large scale. As soon as the fall rains come, we shall put in a two foot flume on the lower clay, use about two hundred inches of water, and then I have no doubt we shall make it pay well. So far, for sixty feet in the bank, we have only worked on the outer edge of the lead, and we cannot yet tell its actual thickness, but the last day we worked we picked up a piece weighing $1.50, one 75 cts, one 50 cts., showing the gold to get heavier as we go in. From the last washing we took out over $70, over half coming out of the top dirt, while working under many great disadvantages. It is no great thing, I admit, but it proves what I want to find out, that the lead is worth working, needing only, as I have already said, the application of a rapid and large scale of working.

Those who have reposed confidence in me to carry this operation if possible to a successful issue, have a right to demand that I make every effort to do so. So far I have done so; to the end I pledge myself to be faithful, unmolested by the jeers or scoffs of the ignorant or the lazy. To me the experiment has now become a matter of pride as well as of profit, of judgment as well as of interest, and I shall allow nothing to turn me aside from the investigation until I am satisfied it is *no longer justifiable*. The man who is true to himself will always be true to his supporters. In the end, if successful we shall reap a crown of glory, if otherwise, we shall still be treated with respect. In conclusion, permit me to say I have been and shall still be well supported by Messrs, Peterson and White, who have been with me from the beginning and intend to remain to the end.

TWIN OAK FARM

TO BE LET OR LEASED.

THIS WELL KNOWN & PRODuctive tract of land in the vicinity of Victoria, situated about 1¼ miles from town, is offered to let or lease. The Farm contains about 120 aares, more or less of which about 40 acres are under cultivation and bearing a good crop of barley, oats, peas and timothy. There are two Dwelling Houses, commodious Barns, stables and Outhouses. A good Orchard of various fruit trees adjoins the house.

This desirable property will be let, with this year's crop thereon, for a term of years, at a reasonable rate, with the privilege of purchase during the term of the lease

The Farming Implements complete, a yoke of Oxen, Team, &c, can be bought at private sale if desired

For particulars, inquire of

Queen Charlotte Coal Mining Company,

(LIMITED.)

NOTICE IS HEREBY GIVEN THAT an Extraordinary General Meeting of the Shareholders of the abovenamed Company will be held in the Council Chamber, corner of Broad and Trounce streets, Victoria, on TUESDAY the 6th day of July next, at ONE O'clock, p.m., for the purpose of passing a Special Resolution to alter and amend a Resolution passed at the General Meeting of Shareholders held July 15, 1868.

H. GASTON, Secretary.

Victoria, June 26th, 1869. je28

New Advertisements.

Queen Charlotte Coal Mining Company (Limited.)

Victoria, V. I., 5th July, 1869.

TO THE SHAREHOLDERS:—Our Directors have again commenced the begging-letter system; it is an omen that bodes us no good. A petition is going the rounds to forestall votes by a one sided statement of something intended to be done when you will find disadvantageous to the Shareholders. The notion of doing business in this style is to stifle discussion (as has occurred before) in the meeting now advertised to be held, as when they have once obtained our signature they will try to bluff us by saying "What further discussion do you want, you have agreed to what we intend to do?" Don't be led away so easily.

Their WRITTEN STATEMENT is that they want to raise by mortgage on our lands, plant, buildings, railways, &c., five thousand dollars; finding you submissively disposed they will at the meeting bring forward A RESOLUTION TO INCREASE IT TO FIFTEEN THOUSAND DOLLARS. The real meaning of the mortgage is to ease the pockets of some of those who have taken up more bonus shares than they can pay for

The last raise of money was made by the creation of F shares WITH A BONUS of a dollar for every dollar subscribed. This bonus-dollar-stimulant was too enticing for some and they overbought themselves. The Directory went in heavy, and they now propose mortgaging our property so that we shall have to find the money, instead of the bonus shares paying up sufficient assessments—they at the same time holding on to the bonus dollar. They can thus eat their cake and have it still. It would look like that failing to make money by opening our mine, money is to be made out of the shareholders.

One Director becomes our contractor; then another, our Superintendent, at $200 and extras a month; at the same time we have not money enough to meet current expenses. Other Directors trade with the Company and, in defiance of the Act of Parliament, continue to sit at the Board as Directors. And then, how about the money payment to themselves? When their little account comes due, when they want to manipulate the spondulicks, do they make things pleasant for themselves? The happy family in full blow.

When the bonus share proposition was first out I endeavored to get you to insist upon having plans, specifications and estimates for the work to be done and the expenditure required before you granted the new shares. This, so simple and straightforward a proposition as to appear almost a truism, the Directors beat you upon, you now, I hope, have a glimmering of coming events.

The amount said to be required was $15,000. The figures now looming upare:

Balance in hand and F. shares not called up	$4,000
Materials and plant on ground	5,000
F. shares, (new creation.)	11,250
do bonus	11,250
Proposed absolute mortgage on lands, buildings, plant, &c	15,000
	$46,500

Banking account overdrawn 1,500 dollars, and further demands in the back ground, which you shall see when you shall see.

I will now put forward another straightforward and useful proposition; Don't give any further powers to the Directors for raising money by new shares or otherwise until you know the whole amount of our liabilities.

A resolution has been passed by the Directors that no shareholder shall see the supposed contract nor bonds of sureties said to be entered into; insist upon having them on view, you will find them somewhat damaging to your interests.

When I heard money was so scarce that a mortgage was intended, I paid up my bonus and shares in full. So the Directors do the same or sell. The shares are at least at par. Under similar circumstances poor old Gretney's shares were seized, not only the shares on which he had paid all his calls, but also his shares which had been paid up in full.

WE HAVE NOW FIVE MORTGAGES ON THE MINE, AND THIS NEW ONE OF $15,000 WILL BE A TOPPER.

The outside quantity of coal at present discovered is 40000 tons, which will not pay expenses and to find more further prospecting and more money will be required.

Who knows but that $200 and contingencies may be bread for life?

C. HOUNSLOW,
Civil Engineer.

Recollect that the whole of our works might have been done in a quarter of the time and at a quarter of the money outlay that has been gone into, and it is only the most lamentable ignorance and mismanagement that has trailed us on to the extent we have gone to. 2*

BRITISH COLUMBIA

SAVINGS BANK

(Established under the "Savings Banks Ordinance, 1869.")

The BANK receives DEPOSITS varying from ONE QUARTER OF ONE DOLLAR to ONE THOUSAND DOLLARS Repayable on ONE WEEK'S NOTICE.

The present rate of INTEREST allowed to depositors is 5 per cent per annum, (the fractional parts of dollar and months not being computed.)

At the ends of each Year, the accruing Interest is added to, and becomes part of the principal, (provided principal and interest do not exceed $1000.)

The repayment of Deposits is secured by the Guarantee of the Public Revenue of the Colony.

Deposits are received between the hours of 11 a.m. and 1 p.m., at the following places, viz: At the Treasury, James Bay, on Mondays, Wednesdays and Thursdays; at the Post Office, Government street, on Tuesdays and Fridays,

A BRANCH SAVINGS BANK will be opened for the transaction of business at the Treasury buildings, New Westminster, on Tuesday next, the 6th of July; and at other places in the Colony as soon as the necessary arrangements can be made.

By order of the Commissioners

JOHN GRAHAM,
In Charge.

THE BRITISH COLONIST.

Monday Morning, July 5, 1869.

LOCAL BREVITIES.—James McGilvray, who for a long time has annoyed pedestrians on the public streets by appeals for money, was brought before the Police Magistrate on Saturday charged with vagrancy. The wretched man pleaded inability to procure work, but there was not wanting evidence to show that he had work had fallen out long ago. He was remanded for two days.....On Friday a young Indian woman, engaged in picking berries on the reserve, was attacked by a large dog belonging to a tannery, and very badly bitten on the left arm. The girl complained at the Police Barracks and the owner of the dog compensated her with money for the injuries she had sustained..... A man was handling a pistol at the American Hotel, on Friday night, when it went off and shattered a large mirror. He was arrested; but upon the facts becoming known to the Police Magistrate on Saturday morning was discharged.....The steamer Gussie Telfair, Capt. Sholl, sailed from Brodrick's wharf on Saturday morning at 10 o'clock for Portland. She carried a very few passengers the mail and express and a small freight.

ANOTHER DRY SEASON.—The brush on either side of the Fraser is reported on fire and the chances for another smoky summer appear good. Rain is sadly wanted. The climate *must* be changing. When Cariboo was first settled the universal complaint was that the summer season was too wet. Now, after eight years of occupancy, the cry arises from the miners that it is too *dry*. The poet, wishing to convey the idea that the *genus homo* is by nature discontented, wrote:

"Man never is, but always to be blest."

Had he lived in Cariboo the two last years he would have grumbled in spite of his philosophy.

LEECH RIVER.—A letter from Mr. Harnett appears in this day's issue. The writer is evidently greatly encouraged by his prospects, and brings a few ounces of palpable grains of truth to substantiate his statements. His partners are equally well satisfied with the result; but it appears that, whilst the company have been throwing cold water on the bank, a party in town has been less reputably engaged in throwing cold water on the enterprise. We are glad to know that while hydraulic operations on Leech have proved partially successful, the hydraulics in town have signally failed in their purpose.

NEW STEAMER AND EXPRESS ARRANGEMENTS.—For the remainder of the summer months the steamer Enterprise will make but one trip to New Westminster each week, leaving Victoria on Friday morning and returning on the following Wednesday. Barnard's Express for the upper country will be dispatched from the office here on Fridays, and the down express will arrive here on Wednesdays. From New Westminster the steamer Lillooet, Capt. Fleming, will start for Yale every Saturday, returning on Tuesday.

INDEPENDENCE DAY.—Yesterday, the 93d anniversary of American Independence, was observed by throwing to the breeze all the bunting in the city. American, British, and Hawaiian ensigns waved side by side—evidences sufficient, if any were wanting, of the cosmopolitan character of our population, and of a sincere desire on the part of all classes to show respect to the occasion. To-day the event will be celebrated from one end of the continent to the other; and British Columbians will not be behind their brethren on the other side of the line in "demonstrating."

PATRIOTIC AMERICAN SAILORS ON A STRIKE.—Yesterday evening ten or a dozen sailors belonging to the American ship General Cobb, now lying at Sayward's Mills loading piles for San Francisco, came to town in a farmer's wagon. They report that yesterday being 4th of July they were ordered by the "old man" (Captain) to wash down the decks. They refused, on patriotic principles, to obey the order, and the Captain paid them off.

FROM NEW WESTMINSTER.—The steamer Enterprise arrived from New Westminster on Saturday evening, bringing a few passengers a small mail and express from the lower iver. The non-arrival of the Cariboo express is attributable to the change of day for the arrival of the up-river steamer at Soda Creek.

MANY of the telegraph poles in the wooded districts of Washington Territory have been destroyed by fire. From indications it would seem that the devouring element is determined to finish the work this year that it commenced last summer.

AMONG the passengers by the Gussie Telfair was W. C. Ward, Esq., manager of the Bank of British Columbia in this city. Mr. Ward, (as previously announced,) will remain at Portland, Oregon, during the absence at San Francisco of Mr Russell, manager of the Portland branch. Mr. W. W Francis succeeds Mr. Ward at this office.

WESLEYAN SUNDAY SCHOOL PIC-NIC.—The children connected with the Wesleyan Sabbath School will engage in a pic-nic to Cedar Hill to-day. Williams' 'busses will run all day between the Hill and the city, and the Committee of arrangements promise participants much enjoyment.

PORT TOWNSEND.—We have the *Message* of the 30th. The locals of interest are that several of the houses are being painted, and that the Good Templars are preparing to erect a new hall.

SIX ships are on the way from San Francisco for Barrard Inlet.

DEATH OF CAPT. TITCOMBE.—We regret to learn that Capt. John Titcombe, one of the British Columbia pilots, died about half-past 10 o'clock last night. The deceased had been suffering from ill health for some time. Capt. Titcombe was a most efficient pilot, and well known all over the coast. He will be generally regretted.

THE CALEDONIAN GATHERING.—To-day our citizens are offered a rare opportunity for enjoyment at a nominal cost; there will be amusements suitable for every taste and every age. The brawny athlete will astonish the natives with his powers of propulsion, and the lovers of the mazy dance find their enjoyment to the strains of sweet music. All who have the time to spare should be at the Caledonian gathering on the grounds adjoining Jay's Nursery. After the games the Caledonians will "dance all night 'till broad daylight and go home with the girls in the morning."

Agricultural Facts.

Young chickens are the best protection to young plants in the garden. Toads will do similar work when the chicks are asleep.

The best answer to be made when newspaper or book farming is made light of is that experience is none the less valuable because it is printed.

There is a spinning jenny in Willimantic that can make a thread 67 miles long from a pound of cotton. At that rate a bale would reach around the world.

It pays to make a cow comfortable in as many respects as possible. Every hour she suffers from any cause, the milk account suffers correspondingly.

It is easy to equal any fancy bred cow with a native as a milker, but if the daughter of the native is as good a cow it is an accident; not so in thorough bred stock.

A farmer in Massachusetts has tried steamidg in his stable for food for five years. He says it costs a third less to winter his cows, and they give a fourth more than when fed on raw hay and grain.

The French Emperor has nine example farms in Gascony, eight in Champagne, three in Cologne, one in Limeusin, and one in Italy. These 22 farms pay him on an average four per cent. on the capital invested.

If you want bone and large development of red flesh in your hogs, give them as good pasture through the summer as your beeves have. It costs less every way to make a big hog weigh 500 by Christmas than to get two small swine up to 250 apiece.

Matthew d'Hombaste, a fancy farmer in France, took a poor tract, and without regard to expense manured it till he harvested 33 bushels an acre of wheat and 17 tons of sugar beets. He could carry the land no further, and he lost money every year he farmed in that way.

Mr Dalton of England, by careful experiment, has shown that where there is a yellow mellow soil three feet under any crop, it can defy the weather and come to maturity without a drop of rain after the 1st of June. This shows that successful tillage husbandry on the arid plains of the Far West depends wholly on deep plowing.

A farmer at Oak Hill, N. Y., made a careful experiment in potato planting last year, which has convinced him that the best seeding is to use two cuts of two eyes each, giving four stalks to a hill. He harvested 50 bushels to the acre more from this planting than on the rows where he used one large potato whole.

Useful Hints.

To cure foundered horses: Take a lump of alum the size of a walnut, powder it and dissolve in warm water. The horse must be drenched with this liquor, and it will throw him into a perspiration, and he will soon be as well as ever. This should be done as soon as you ascertain his condition. The cure is said to be effective.

Large trees, evergreens or deciduous, can be safely removed and the most of the roots preserved, if a moist day is selected. In desperate need try a moonlight night. It is the sun that does the mischief. Tree roots stand currents of hot air about as well as fish do. Small trees are better every way—if one can wait. The man who has not yet learned the pleasure of watching growth has one pleasure yet in store for him, if he will put himself in the way of it. A love of planting comes with the practice of it—like any other virtue.

The new Press of the London "Times."

[From the Court Journal.]

The *Times* is now printed by new machinery so perfect and so simple that it takes but one engineer and three laborers to print off the whole edition of the *Times*. The principle of the machine is that the paper is not cut into sheets before it is printed, but is brought to the machine in a long roll. It passes through the machine, is printed on both sides and divided as it passes out, the whole process being automatic. The idea has long been worked at by engineers, but has only lately been practically carried out, under the superintendence of Mr. Macdonald, the engineer who has charge of the whole *Times'* machinery. The new machine is called the "Walter Press," in honor of the chief proprietor of the *Times*. It will quite supercede the Hoe machine, and is an improvement upon the admirable French Marinoni machine upon which the *Echo* is printed.

VICTORIA HOUSE.—Just received by Express the New and Elegant Lace Scarfs, (Garde Francaise, Chevreuse and Incroyable), Real Lace Shawls, Irish Poplins, Glace Silks, Satins, Ribbons, Trimmings, Buttons, Flowers, Trimmed Sets, Lace Falls, Silk Serges, New Dress Materials, and a variety of Fancy Goods; also a complete assortment of Ladies' Skirts and underclothing. *

Canadian Items.

The resolutions pending for the admission of Newfoundland to the Confederacy were adopted on the 8th June by the Canadian Parliament, sitting in Committee of the Whole. The debt of the Province is $1,400,000.

It is said that the Attorney-General of Prince Edward Island is about to be elevated to the office of Judge; and that the Hon. Colonial Secretary will vacate in favor of the Hon. Mr. Haythorne, who will appeal to his constituents for re-election.

A short time since a son of Mr. Thomas Burt, a gentleman well known in the parish of Douglas, York county, found a hen's nest secreted in an out-of-the-way place as hens are wont to secrete their nests. Upon examination of the eggs, one of them, we are informed, was found to bear this wonderful inscription, in raised letters, '*Beware of Advents, for they are blind Guides!*' The fame of this marvellous egg has spread far and wide, and hundreds have called upon Mr. Burt to satisfy their curiosity. The words are distinctly to be seen, each letter raised and sharply defined upon the surface of the shell; and Mr. Burt, who is widely known as a man of the strictest integrity, tells his simple plain story with regard to the finding of the egg. No little excitement prevails in the neighborhood, and many of the superstitious ones look upon it as a direct interposition of Providence to warn the people as to the errors of Adventism, which had been making some headway in the place.

The county of Renfrew gaol is without a prisoner, which speaks volumes in favor of the morals and good order of the county.

Miss Helen W. R Tisdale died at Vittoria on the 21st ult, having lain twenty-eight years in bed, from which she was never raised, except in a sitting posture.

England's Attitude and its Cause.

(From the London Times, May 25th.)

We assert, and, what is more, we do not believe any reasoning American can deny, that the escape of the Alabama, whether chargeable against us or not, was, at any rate, absolutely unconnected with the "misdirected sympathies" which American opinion places to the wrong side of our account. Our Government may possibly be held responsible for negligence, tardiness or other sins of omission, but it was certainly not guilty of connivance, or malice, or any willful design against the interests of the Federal Government. In plain terms, it was not because Lord Russell himself, or any of his colleagues, or any of their subordinates, high or low, wished ill to the Federals or well to the Confederates that the southern cruiser succeeded in getting to sea. *That is our position.* The position taken by the Americans rests entirely, from first to last, we will not say upon opposite convictions, but upon opposite pretensions. The Americans are not, we firmly believe, convinced to the contrary, but they choose to assume the contrary, because in no other way can they bring their real grievance to the front. That grievance, as expressed by one of their best friends in this country, Mr. Bright himself, is, that at a most trying time of their national fortunes we treated them with an "icy coldness." Possibly, but Mr. Bright himself would be ready to declare that "coldness is not a cause of war, and he would, we are sure, allow that such coldness did not affect in the slightest degree the acts of our Government. We did endeavour, whether successfully or otherwise, to keep clear of all international offence. Whatever may have been our speculations on the result of the civil war, we never intended to affect it by our conduct. We could not possibly ignore the existence of the war itself, and so the Neutrality Proclamat on was necessarily issued, but after that, though much more was hoped from us by the Confederates, and pressed upon us by our allies, we persisted through the severest of trials, in that non-intervention which the Federals so earnestly desired. Whatever wrong actually happened under these circumstances happened purely through sheer accident or private trespass, as any incident of the blockade. We assert, therefore, and we most resolutely maintain, that the claims resulting from the Alabama depredations are identical, in all but degree, with those originating in any other possibly wrongful captures. We cannot permit them to be taken out of the category of such demands on the ground that an 'unfriendly spirit' preceded the escape of the depredator, and that such spirit must be argued for. That demand is of another character altogether. We resist it, and on this plain ground—that whatever direction our sympathies may have taken, we owe no account on such a point to any international tribunal.

A SANGUINE ENVOY.—A curious illustration of the over-sanguine temper of Mr. Reverdy Johnson came within my cognizance accidentally since his departure to his own country last week. Though deputed on a difficult mission by an Administration which had but six months to live, Mr Reverdy Johnson, on his arrival here in August last, forthwith entered into a contract for a residence in Portland place for a period of five years, at a much higher rent than that which had been paid by his more phlegmatic predecessors. The agent of the owner, though little of a politician, had shrewdness enough to introduce a covenant in the lease providing for the payment of a very large sum as compensation in case the Minister Plenipotentiary should find it convenient to leave England before the period had expired; and under this stipulation Mr Johnson I understand was obliged to pay before quitting England a forfeit of upwards of £2 000.—*Manchester Guardian.*

WHEEL-'OSKY-PEDAL.—Sarvy to Jehu, at first sight of bicycle: "Vy, if 'ere isn't a cove as 'as been condemned to transportation on an itinerary treadmill." Jehu: "No, my old honeycomb, its only the latest fashion in donkey-carts, and the donkey 'as run away with itself, that's all."—*The Shadow.*

"IT is a standing rule in my church," said one clergyman to another, "for the sexton to wake up any man that he sees asleep." The other replied, "I think that it would be better for the sexton, whenever a man goes to sleep under your preaching, to wake you up."

If the girl of your heart you for months have not seen.
Don't give way unto grief or sorrow,
Such a course, on your part, would be awfully green,
For you're sure to be older—to-morrow.

When the Blackfriars Bridge over the Thames was built in the latter part of the last century, Dr. Johnson predicted that the documents and medals placed in the cornerstone would not be disturbed for a thousand years. The bridge which he thought would stand so long has already been torn down; but the prophecy is quite likely to be fulfilled, for the greatest pains have failed to find the foundation-stone, which was probably buried in a hole dug to receive it, and will now be covered by the new structure.

LIES BY CABLE.—There seems to be no fabrication concerning European politics too absurd for currency in New York. Some one, being in want of news, telegraphed to the papers there an announcement that a triple alliance had been entered into by France, England and Spain against America. The message was at once carried to the President, but, says the reporter who witnessed the thrilling incident, "Grant looked as if he did'nt care"—another fine example of his self-possession and fortitude. For some days the tale was fully believed in by the public and seriously discussed in nearly all the papers. Even assuming that it pays to print such silly falsehoods in America, it can hardly be worth while to keep correspondents over here to make them up and go to the expense of telegraphing them. They could be concocted just as easily in New York, and while the editor was in he mood he might as well tell another lie and say they came by cable.—*Pall Mall Gazette.*

THE BELLE AND THE STUDENT.—At a certain evening party a haughty young beauty turned to a student who stood near her, and said: "Cousin John, I understand your eccentric friend L—— is here. Do bring him and introduce him to me."

The student went in search of his friend, and at length found him lounging on the sofa. "Come L——," said he, "my beautiful cousin Catherine wishes to be introduced to you."

"Well, trot her out, John," drawled L——, with an affected yawn.

John returned to his cousin and advised her to defer the introduction to a more favorable time, repeating the answer he had received. The beauty bit her lip; but the next moment said: "Well, never fear, I shall insist on being introduced."

After some delay, L—— was led up, and the ceremony of introduction was performed. Agreeably surprised by the beauty and commanding appearance of Catherine M, L—— made a profound bow; but instead of returning it, she stepped backward and raising her glass, surveyed him deliberately from head to foot; then waving the back of her hand toward him drawled out: "Trot him off, John! trot him off! that is enough!"

Kleptomania Neatly Punished.

The Paris *Figaro* tells this story: Mme. X—, an elegantly dressed lady, entered one of the emporiums of fashion the day before yesterday, and requested to see some Valenciennes lace, but after some time, not finding any to suit her, withdrew without making any purchase. She had, however, been observed by one of the shopmen to slip a piece of the goods under her shawl. Nevertheless she returned home as it were unnoticed, but on reaching the door of her house was accosted by a messenger, who handed her a small parcel and a letter, which was thus worded: "Madame, I am afraid that the yards of lace which you selected in my shop will not be sufficient to trim your dress; I therefore take the liberty of sending you a second piece of the same pattern. I beg to be informed whether you accept it." The signature was that of the master of the establishment. It is needless to say that the lady was only too glad to escape, by prompt payment for the whole from some very unpleasant consequences.

MR ROEBUCK AND SHEFFIELD.—Mr J. A. Roebuck, in a letter dated the 25th inst., acknowledging the Roebuck testimonial, writes as follows to a Sheffield Alderman:—"As I suppose this will be the last political act of kindness that I shall receive from my friends of Sheffield, I seize upon it as an opportunity to express, if possible, the strong emotions of my heart, roused as they are by the recollection of all that has passed during the many long years that I have acted as their representative in the House of Commons. The generous confidence always bestowed on me by the great body of the constituency was I believe never betrayed by me; selfish considerations, I sincerely believe, never influenced a vote given in their name; and every act of my political life, whether wise or unwise, was prompted solely by a desire to promote the welfare of my country. These may seem proud and swelling words, but without fear I say they are true words; and had I not so acted I should indeed have been unworthy. They who chose me honorably trusted me; they confidingly put a great power into my hands, believing that I would use it only in a way that I should deem conducive to their good, swayed by no party or personal objects, thinking only of the great interests of my country, making her happiness, her honor, and her glory the light by which my path was to be guided. And now we part, my many friends giving me this last token of their approbation and respect, and I in these weak words recording the gratitude and affection which I feel in return for their unflinching support and kindness."

CONSEQUENCES.—A man from the country invested five cents in the purchase of an orange, and preparatory to getting himself outside of it, threw the peel on the sidewalk. Soon after a young woman came along, slipped on the peel, and fell on the sidewalk, breaking her leg. This young woman was to have been married the next day, but wasn't. The man who was to have married her had come from St Paul, Minnesota, and was obliged to return on account of business and to await the recovery of the girl. On his way back he unfortunately took a train on the Erie Railway, which ran off the track, and his shoulder blade was broken, forcing him to stop at Dunkirk for repairs. The Travellers' Insurance Company, in which he was insured, had to pay $250 in weekly instalments before he recovered. On getting back to St. Paul, he found that his forced absence had upset a business arrangement which he had expected to conclude, at a pecuniary loss to him of $5000. Meanwhile the injured girl suffered a relapse, which so enfeebled her health that her marriage was delayed, which had a bad effect upon the young man, and he finally broke the engagement and married a widow in Minnesota with four small children. This so worked on the mind of the girl that she is now in the insane hospital in Middletown. Her father, outraged by the conduct of the young man, brought a suit for breach of promise, and has just recovered $10,000.

BUY IT AND TRY IT.—Russell's celebrated coffee. The best on the Coast. Warranted a pure and healthful beverage. *

The True Medical Doctrine.

Nature when struggling with disease, indicates unmistakeably the kind of assistance she requires. In cases of nervous weakness and general debility, the feeble pulse, the lack-lustre eye, the attenuated frame the flaccid muscles, the melancholy visage, inform us as plainly as if each organ had a tongue, that a *medicated stimulant is needed.* It does not require the aid of a medical education to understand this dumb appeal for new vigor, from an exhausted system. Every reader of these lines can comprehend it just as well as the graduate of a physicians' college. Let not this demand of enfeebled nature be neglected. Respond to it promptly by commencing a course of HOSTETTER'S STOMACH BITTERS, a preparation uniting, in their highest excellence the properties of a stimulant, an invigorant and an alterative. Before three days have elapsed, from the taking of the first dose, a beneficial change will be manifest in bodily and mental condition of the patient. The pulse will be stronger and more regular the eye will begin to lose its dull expression, the muscular and nervous systems to recover their tension, and the spirits to improve. Persevere and a complete revivification of the depressed animal and mental powers is certain. In cases of dyspepsia and biliousness, the same salutary results will be obtained. The appetite will revive, the sallowness of the skin disappear, and all the distressing symptoms which accompany disorders of the stomach and liver will rapidly subside. The cold of winter often intensifies these complaints by checking the perspiratory action, by which so much morbid matter is evaporated through the pores in milder weather, and therefore the BITTERS are especially useful to the dyspeptic and at this season.

2*

ROWLANDS' three great preparations for the hair, the complexion, and the teeth, are known in all quarters of the globe. Their famous "Macassar Oil" has been counterfeited in France, Germany, and elsewhere, but none of the spurious preparations have possessed the extraordinary properties of the genuine article. Rowland's "Kalydor" for the complexion has retained its prominent place among fashionable cosmetics notwithstanding the numerous new articles introduced for the complexion. The "Odonto" for the teeth is highly prized by thousands who have used no other dentifrice for years. Rowlands' great success during the past two generations, and their present prominent position as manufacturers, may justly be attributed to the excellent character of their articles, and to the fact that unlike many other proprietors of established fame, they do not allow their cosmetics to deteriorate in quality. 3*

Remittent and Intermittent Fevers,

Chills and Fever, and Fever and Ague are all speedily cured and permanently banished from the system by the use, as directed, of Bristol's Sarsaparilla and Pills. The hardest Ague Case quickly disappears under their healing influence. 585*

AN INCIDENT!

"Ah! me, it is withered!" cried a maiden sighing over her dead bouquet; but remembering her flacon of true MURRAY & LANMAN'S FLORIDA WATER, she sprinkled her handkerchief with that indestructible perfume, and was consoled.

☞"As there are counterfeits, buyers should always ask for the Florida Water prepared by the sole proprietors, Lanman & Kemp, New York. 560.

FELL'S COFFEE has become the favorite Colonial beverage, and is to be found on every breakfast table from Victoria to the foot of the Rocky Mountains. *

Lumley Franklin,

AUCTIONEER, COMMISSION & REAL ESTATE AGENT

BEGS TO ANNOUNCE THAT HE HAS taken the Fireproof Brick Building in Yates street, nearly opposite Messrs. Wells, Fargo & Co.'s Express office. Having had several years' experience in the auction business, he respectfully solicits a renewal of public support. mald

A large and splendid collection of negatives, from which Cartes may be obtained at a great reduction on the present prices.

je22 J. AUGUSTUS CRAIGG.

Medical.

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.I.H. Prince Napoleon

PARIS.

THESE different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the **Academy of Medicine** and have been proved efficacious, either in the hospitals or in the practice of the first medicalmen, are authorised by the Government. This fact must be a guarantee for the excellence of **Messrs. Grimault et Co.'s** Medicines.

DOCTOR LERAS'

(Doctor of Medicine.)

LIQUID PHOSPHATE OF IRON.

The newest and most esteemed medicine in cases of: **Chlorosis. Pains in the Stomach Difficult Digestion, Dismenorrhea, Anæmia, General Debility and Poorness of Blood.**

It is particularly recommended to regulate the functions of nature, and to all ladies of delicate constitution, as well as to persons suffering under every kind of debility whatsoever. It is the preservative of health par excellence, in all warm and relaxing climates.

NO MORE COD LIVER OIL!

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil and has been found most beneficial in **Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atony, and Loss of Appetite.** It regenerates the constitution in purifying the blood, it being the most powerful depurgative known. It has also been applied with happy results in **Diseases of the Skin.** Further, it will be found to be of great benefit to young children subject to **Humors and Obstructions of the Glands.**

CONSUMPTION CURED!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of Consumption and other Diseases of the **Lungs.** It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease and the patient is rapidly restored to health.

N.B.—Be sure to see that the signature of **Grimault & Co.** is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S

(Laureate of the Paris Imperial Academy of Medicine

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Gastritis,
Gastralgia,
Long and Laborious Digestion,
Wind in the Stomach and Bowels,
Emaciation,
Jaundice, and
Complaints of the Liver & Loins

NERVOUS HEADACHE NEURALGIA, DIARRHŒA, DYSENTERY,

INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazils has been employed since time immemorial to cure **Inflammation of the Bowels.** It has proved to be of the greatest service in cases of **Cholera,** as it is a preventive and a cure in cases of Diarrhœa

GRIMAULT & Co.'s

Syrup of Ferruginous Peruvian Bark.

Chemists to H. R. H. Prince Napoleon, 43 rue Richelieu, Paris.

This preparation has the great advantage of combining two most powerful tonics known in the medical world. Of perfect limpidity and agreeable taste, this Syrup is taken with pleasure and suits the most delicate stomachs It is par excellence the FERRUGINOUS TONIC which should be administered to ladies of delicate constitution, young persons backward in attaining the age of puberty, and to children of a weak constitution: and is particularly employed in the treatment of Cholorosis, Anemia, Pale Complexion, Gastrics, Gastralae, Whites, Leucorrhea, Debility, Want of Appetite, Poverty of Blood, &c.

No more Dyspepsia, Vomiting during Pregnancy, or Sea Sickness.

GRIMAULT'S ELIXIR OF PEPSINE.

Pepsine undergoes no alteration in this delicious preparation. It will consequently be preferred to Pepsine Powders or Pills. It is the digestive medicine par excellence and is at the same time a most agreeable table liqueur.

Messrs. Grimault beg to call the attention of the faculty and the public in general to the fact that real pepsine is prepared in France alone. It is far superior to all others often extracted from the stomach of porci.

NO MORE COPAIBA OR CUBEBS!

Grimault's [illegible]apsules and Liquid Extract of Matico Vegitalis.

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris by the celebrated Dr Ricord, and found greatly superior to all hitherto known mineral remedies and Copabia and Cubebs. The injection is used in recent, and capsules in more chronic cases.

SYRUP AND LOZENGES OF SAP OF SEA PINE.

Prepared by Lagasse, Chemist, at Bordeaux, possesses the Balsamic and Resinous Properties of the Sea Pine. It is employed with success against affections of the Chest, Cold, Bronchitis, Catarrh, Asthma, Influenza, Hooping Cough, etc.

In Victoria—Messrs. LANGLEY & CO.

Groceries and Provisions.

FRAUD

On the 27th June, 1866, MOTEEWALLAH, a Printer, was convicted at the Supreme Court, Calcutta, of counterfeiting the

LABELS

of Messrs CROSSE & BLACKWELL, London, and was sentenced by Mr Justice Phear to,

TWO YEARS RIGOROUS IMPRISONMENT

And on the 30th of the same month, for

SELLING SPURIOUS ARTICLES

Bearing Labels in imitation of Messrs CROSSE & BLACKWELL'S, SHAIK BACHOO was sentenced, by the Suburban Magistrate at Sealdah, to

TWO YEARS RIGOROUS IMPRISONMENT

CAUTION.—Anyone SELLING SPURIOUS OILMEN'S STORES, under Crosse & Blackwell's name, will be liable to the same punishment, and will be vigorously prosecuted. Purchasers are recommended to examine all goods carefully before taking delivery of them. The GENUINE manufactures of Messrs Crosse & Blackwell may be had from EVERY RESPECTABLE DEALER on Vancouver Island. my19 1aw

Manufactured by

CROSSE & BLACKWELL

PURVEYORS TO THE QUEEN,

SOHO SQUARE, LONDON

CROSSE & BLACKWELL'S

Well known Manufactures are obtainable from every respectable Provision Dealer in the World.

Purchasers should see that they are supplied with C. & B.'s genuine goods, and that inferior articles are not substituted for them.

To insure thorough wholesomeness their Pickles are all prepared in Pure Malt Vinegar, boiled in Oak Vats, by means of PLATINUM STEAM COILS; and are precisely similar in quality to those supplied by them for use at

HER MAJESTY'S TABLE.

C & B. are Agents for LEA & PERRINS' CELEBRATED WORCESTERSHIRE SAUCE, and are Manufacturers of every description of Oilmen's stores of the highest quality. my19 1aw

LEA & PERRINS'

CELEBRATED

Worcestershire Sauce.

DECLARED BY CONNOISSEURS

TO BE

THE ONLY GOOD SAUCE.

CAUTION AGAINST FRAUD.

The success of this most delicious and unrivalled Condiment having caused certain dealers to apply the name of "Worcestershire Sauce" to their own inferior compounds, the Public is hereby informed that the only way to secure the genuine is to

ASK FOR LEA & PERRINS' SAUCE

and to see that their names are upon the wrapper, labels stopper, and bottle.

Some of the foreign markets having been supplied with a spurious Worcestershire Sauce, upon the wrapper and labels of which the names of Lea & Perrins have been forged, L. and P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against Manufacturers and Vendors of such, or any other imitations by which their right may be infringed

Ask for LEA & PERRINS' Sauce, and see Name Wrapper, Label, Bottle and Stopper.

Wholesale and for Export by the Proprietors, Worcester; Crosse & Blackwell, London, &c. &c.; and by Grocers and Oilmen universally.

THOMAS ALLSOP,
my12 Land Agent, Government street.

TO THE UNFORTUNATE

NEW REMEDIES, NEW REMEDIES.

Dr Gibbon's Dispensary,

623 KEARNEY STREET, CORNER Commercial, San Francisco, Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis, in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned to this State, after an absence of one year during which time he visited all the principal Hospitals of Europe, among them those of Dublin, London and Paris. The following celebrated Hospitals of London are among those visited by the Doctor: Guy's, High street, Borough; St. Bartholomew's, Smithfield, St. Luke's, Old street, St. Mary's, Camb. Place, Pad., Lock, Harrow Road; University, Gower street; Westminster, Broad Sanctuary; Charing Cross, Agar street, Strand; London, Whitechapel Road, Royal Free, Gray's Inn Road; King's College, Portugal street

DR. GIBBON has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces, and their broken down constitutions, disqualifying them from the happiness of marriage or of the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible, life-destroying maladies—see that they are cared for, and cured before it be too late. Send them immediately to DR. GIBBON, a physician who has made private diseases his especial study for years, who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended Doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful, and make strict inquiry, or you may fall into the hands of those charlatans

Seminal Weakness.

Semina 'Emission' the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz.: sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN.

Of those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Cured at Home.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. By enclosing $15 in currency or $10 in coin, in a registered letter through the Post office or through Wells Fargo & Co., a package of medicine will be forwarded by express to any part of the Pacific Coast.

Address Dr J. F. Gibbon, 623 Kearney street, corner Commercial, San Francisco.—Post office box 252.

☞ Private Entrance on Commercial Street ☜
Remember to put BOX 252 on the letter.
Consultations FREE.

☞ Correspondents will please inform Dr Gibbon that they read his advertisement in the British Colonist.

ROYAL INSURANCE COMPANY.

FIRE AND LIFE.

CAPITAL............TEN MILLION DOLLARS

RESERVE TO MEET LOSSES FIVE MILLION DOLLARS

CHARLES TURNER, Esq., M. P. CHAIRMAN, PERCY M DOVE, Manager.

THIS COMPANY HAS NOW THE LARGEST income for Fire and Life Premiums of any Company in the world.

The undersigned, Agents for Vancouver Island and British Columbia, return their particular thanks to the public for their patronage of the Royal since the opening of the agency, and also to the Victoria Fire Companies for their valuable services.

The Fire Branch

Of this agency in 1864, was nearly double that of 1863—the risks in Victoria alone amounted to $1,100,000.

The business of the

Life Branch.

Has also largely increased since the Directors reduced the rate to the English standard.
